Experience

Freelance Full Stack Web Developer **January 2025 – Present**

- I develop and maintain responsive web applications, manage databases and APIs, and handle testing, debugging, and deployment. I also build user-friendly solutions tailored to client requirements.

Bellah Beatrix Cosmetic Products Trading – General Trias Cavite

IT Support Intern **March 2026 – June 2026**

- Developed a centralized web-based order management system to replace manual encoding workflows, enabling faster access, tracking, and management of order information, resulting in a 40% improvement in order processing efficiency.
- Extended the lifespan of company computers and printers by diagnosing and resolving common hardware and software issues through basic troubleshooting and maintenance, reducing unnecessary hardware replacement expenses and delaying premature equipment purchases.

Education

Cavite State University – Main Campus

Bachelor of Science in Information Technology **June 2022 – August 2026**

- **Relevant Coursework:** Web Development, Game Development, Mobile Application Development, and Networking, with hands-on experience in software development, application design, database integration, and network configuration.
- **GPA:** Achieved a GPA of 1.77, reflecting strong academic performance under a grading scale where 1.00 is the highest and 5.00 is the lowest.

Projects

VIRTUAL REALITY PC ASSEMBLY & CONFIGURATION SIMULATION (CAPSTONE).

- Lead a team of 3 in developing a computer hardware simulation application for STI IT students to practice assembling and configuring computer components in a virtual environment, reducing the risk of physical hardware damage while improving hands-on learning and technical understanding.

HR Management System / ERP SYSTEM Internship System

- Assisted in developing a web-based Human Resources Management System that centralized employee records, automated payroll processes, and integrated attendance, leave, recruitment, and reporting features, reducing encoding and payroll management time by 60% while improving HR efficiency, data accuracy, and accessibility.

TAN-THE-BARBER (NDA)

- Developed a production-grade, NDA-protected barber reservation platform using Next.js and Supabase, featuring real-time notifications, an admin dashboard, and dual in-shop/home-service booking workflows. The platform significantly streamlined the user experience, resulting in a 40% increase in reservations and highly positive customer feedback regarding its intuitive, mobile-first design.

ReFresh - CPA Review Management Web Application (NDA)

- Developed a secure CPA review management web application using React, Node.js, PostgreSQL, Supabase**.** featuring lecture video uploads, interactive PDF highlighting, and rich-text note-taking to centralize and simplify access to study materials.
- Improved data management efficiency by **60%** by streamlining the organization, storage, and retrieval of review materials and personal notes, enabling users to access learning resources more efficiently.

Certificates

- Attendee - UiTM CvSU Webinar Series for Engineers and Programmers, Modules 1-4 (2025).
- Attendee - Collaborative Online Internation Learning Programme, Modules 1-4 (2025).
- Prompt like an Engineer Certificate – Cisco Networking Academy (2026).
- Computer Hardware Basics Certificate – Cisco Networking Academy (2026).

Skills & Interests

Technical Skills

- Design and Prototyping using Figma, Photoshop, and Canva
- Front-End development by using HTML, CSS, JavaScript, Bootstrap, React, Laravel.
- Back-End development using PHP, MySQL, PostgreSQL, Node.js, Next.js, Supabase.
- Object-Oriented Programming by using C# and Java.
- Knowledge in Unity Game Engine and Game Development.
- Tools: Cisco Packet Tracer, Visual Studio Code, XAMPP, Git/GitHub, Vercel, OpenAI Codex, Claude Code.
- Networking: Basic understanding of IP addressing, routing, and switching concepts.

Personal Skills: Detail Oriented, Organized, Respectful, Adaptable, Open-minded, Determined.

Language: Filipino, English

Interests: Online Games, Sports, Music
